

NOTICE

An increase in undesirable foreign plant species has been evidenced in our lakes. Once such species are in a lake, they are almost impossible to remove. And, controlling their growth is costly to our community.

- (1) Until further notice, please DO NOT transfer boats or any other objects between Little and Big Lakes.**

- (2) For all boats that are new to Moosic Lakes – before placing in Big or Little Lake:**
 - Use bleach and/or white vinegar to thoroughly clean boat.**
 - Rinse boat thoroughly with hot water.**
 - Sun-dry boat whenever possible.**

- (3) After fishing, DO NOT throw unused live bait into the Lake. Rather, dispose of unused live bait on land, at least 100 feet from shoreline.**

THANK YOU!
